Acquisition of Abalain group

Trigano entered into exclusive negotiations for the acquisition of 100% of the capital of the companies Bretagne Camping-Cars, Bretagne Camping-Cars Quimper, SO.DI.CA. and Britways Car (Abalain group).

Alonso group is a motorhome distributor in Brittany; it employs around 50 people and achieved a total turnover of around €30 M in 2021/2022 from its four sales outlets. Given the level of Trigano's sales to these companies, the contribution to consolidated sales resulting from this acquisition would be around €25 million.

This operation is fully in line with Trigano's development strategy through external growth. The integration of Abalain group would complete the territorial coverage of the Libertium network, which already consists of fifty outlets in France.

2022/2023 Half-Year Results will be disclosed on 17th May 2023
